

VISUAL IMPAIRMENT AWARENESS TRAINING

A half day training programme which enables the learner to achieve a basic knowledge of the problems faced by Visually Impaired people.

There are approximately 309,000 people that are registered as having a significant sight loss in England. There are many more people who for one reason or another do not become registered. For this reason, the precise number is difficult to determine but we can be sure that it is substantially higher than this. Appropriate training is essential for any organisation to successfully meet the needs of this group of people.

Sign Solutions' training course...

- Challenges preconceived notions about the nature of visual impairment
- Gives you an insight into the different types of sight loss that people experience
- Provides practical advice and skills for successful interaction and communication with those that have reduced or no vision

Programme fee: **£550.00** (+ VAT), incl. buffet lunch
